

# Perth Children's Hospital

Nedlands, WA

**YEAR:** 2016

**AREA PAINTED:** Internal Aluminium Panelling

**SIZE (M<sup>2</sup>):** Various

**PRODUCTS USED:**

Epiname<sup>®</sup> UC230/ Paracryl<sup>®</sup> IF540

**PROJECT OWNER:** WA State Government

**APPLICATOR:** Cox Architects

**APPLICATOR:** John Holland Group

**APPLICATOR:** Boat Spray

**ISO/ AS2312 ENVIRONMENT:** C2

The project was initially specified with aluminium powder coated panels built and procured from overseas. During the transportation process, the panels were damaged and therefore required urgent coatings repair. Wattyl PC provided John Holland and the WA State Government with a full specification and methodology, using Paracryl<sup>®</sup> IF540, an isocyanate-free acrylic high gloss topcoat.

Wattyl worked closely with the builders and applicators to ensure the topcoat colours matched the surrounding panels. Paracryl<sup>®</sup> IF540 was selected due its practical use on onsite repair and construction during normal business hours. The Perth Children's Hospital is packed with brilliant finishes which met their specification requirements.

**Wattyl Protective Coatings - Your Trusted Partner in Coatings**
